Aspiring Minds Presents India's Most Employable Freshers
The First AMCAT Toppers Club Merit List

- **Only 100 amongst 500 AMCAT Toppers belong to top 10% colleges**
- **59% of AMCAT toppers belong to Tier II/III cities**

New Delhi, October 29, 2013: Our father of the nation, Mahatma Gandhi once said, *"The future depends on what you do today"*. Aspiring Minds, India's leading employability solutions company has announced the first **AMCAT Toppers Club merit list** of the **500 most employable candidates in India**.

The AMCAT Toppers Club, launched on 2nd October 2013, is an Aspiring Minds initiative to identify India's most employable candidates hidden in unexplored pockets of the nation. These candidates are selected on basis of AMCAT, India's largest employability test. Every quarter, 500 job-seekers will be identified who show exceptional language, cognitive and domain skills irrespective of their city, state, college or high school grades. These candidates show exemplary caliber for various industry roles in the IT and engineering industry, HR/marketing areas, finance roles and others. Aspiring Minds will present them to corporations to do high-efficiency inclusive hiring.

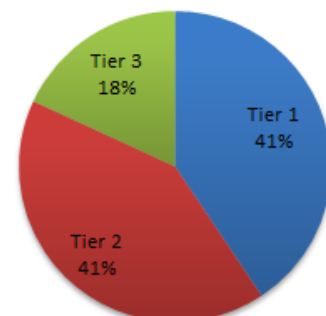

This is the first quarterly merit list (15th July 2013 - 15th October 2013) with 500 highly employable candidates in different fields from a pool of AMCAT assessed engineers, MBAs and graduates.

Commenting on the list, Mr. Varun Aggarwal, CTO and COO, Aspiring Minds said, *"Every year more than 500,000 students take AMCAT, making it larger than management tests like CAT. We are proud to present the merit list with the hope that it serves as a bridge between meritorious candidates from small cities and the companies wanting the best minds. We believe that the identification of this unexplored human capital provides a disruptive benefit to corporations and will transform the nation by driving meritocracy in employment."*

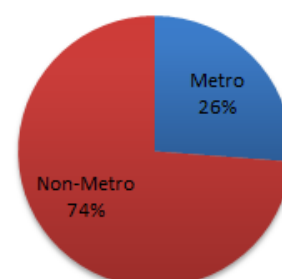

The merit list has some interesting revelations. Only 100 AMCAT toppers are from the top rated 10% colleges/institutions from India, while the rest of the 400 belong to lesser known colleges. Also, around 74% of AMCAT toppers are from non-metro cities. In fact, 59% of AMCAT toppers belong to Tier II/III cities. This showcases that majority of talent lies in the Tier – II/III cities and beyond the top 10% of colleges in India. AMCAT toppers come from cities such as Bhopal, Hubli, Karnal, Gajraula, Lucknow amongst many others spread across the country. The toppers club aims to unleash the potential talent that continues to remain hidden by barriers of state, city and college name and make them visible to top companies of the country.

The merit list along with photographs of the candidates is available on the [AMCAT website](#). Companies can filter the talent according to their specific needs from the list. The list will further be sent to over 550 clients and 12000 corporate recipients.. A certificate of merit from AMCAT has also been provided to the candidates,

Tier-wise split

Metro Vs Non-Metro

which they can further use with their resume to enhance their chances in independent job search. AMCAT over the last few years has gained tremendous popularity across engineering, MBA and graduate students helping them get closer to their dream jobs. With the AMCAT Toppers Club, Aspiring Minds endeavors to find the most employable candidates hidden across the cities.

Interested candidates should visit <https://www.myamcat.com> for participation.

About Aspiring Minds:

Aspiring Minds is India's leading employability solutions company, headquartered in Gurgaon. Aspiring Minds offers scientific assessments with an innovative large-scale sourcing model analogous to a GRE-for-job concept. The state-of-the-art assessment tools developed by Aspiring Minds have been used across industry verticals to help recruit the right people, develop profile-wise employability benchmarks and assess workforce health.

Aspiring Minds' intelligent adaptive assessments span across Language, Cognitive skills, Domain knowledge and Personality. A strong in-house research and development team with alumni from IITs and MIT form the development back bone of the patent pending assessment tools.

AMCAT™ - the flagship product is India's Largest Employability Test. Conducted across the country throughout the year, AMCAT has been taken by over 1,000,000 candidates in 2500+ campuses, spread across 25 states. Tens of thousands of candidates secure their dream jobs every year through AMCAT.

Powered by a highly dedicated management team drawn from the IITs and IIMs, over 225 full-time employees, and a pan-India operational presence, Aspiring Minds has helped leading brands across verticals to improve their recruitment process efficiency and the quality of talent they hire. Aspiring Minds products and solutions have been adopted by leading corporate's across sectors.
